These "PRICE LIST," issued repeatedly during the active seed buying season, is part of the Hoffman Seed Service. The object is to quote closely on farm seeds described in our catalog in accordance with general market conditions on day the list is mailed. No other seed house, selling direct to the farmer, gives similar service.

Prices printed into seed catalogs are invariably out of date. When you order from them you either pay too much or remit too little. "If too much, you are out of pocket. If too little, further remittances are requested, with vexatious delays. These lists will be most valuable to those who can decide quickly. The tardy buyer will miss the most attractive offers.

Hoffman's Winter Seed Wheat is grown especially for seed purposes by careful farmers in the famous valleys of Lancaster County, Pennsylvania. Hardy and vigorous varieties that stand up, resist disease and yield abundantly of both grain and straw are produced. Cleaning and grading are accomplished by modern machinery. "Hoffman's Seed Wheat" stands for every desirable quality in wheat for seed purposes.
